Para-Poomsae individual competition

- In this category, two freely chosen form exercises will be presented by the competitors.
- Category breakdown by classification.

How the competition works

- The tournaments are held in single elimination system, by flag. In the qualifiers, semi-finals and final, 1-1 poomsae must be performed.
- Each poomsae should be presented over a time interval of 30-90 seconds. The rest time between the two poomsae is 30-60 secs.

- The referee chairman of the competition with the consent of the organizer can change the order of the category „B” at the beginning of the competition. In such case coaches must be informed on these changes.

ATTENTION!

In any age group category, if only one competitor competes, he or she must also demonstrate the poomsae that applies to that category, only then can he or she receive a medal. **His or her result still counts towards the team competition!**

Rapid kicking competition

- **Conduct of the competition:**
The contestants follow one after the other. Each contestant can try **twice**. The result of the better one counts towards the competition. In the event of a tie, the contestants decide the medal finishes in an extra round.
